## *Targum Jerusalem* - Tov Rose 2016-01-23

The title accurately designates the Palestinian provenance of this Aramaic version of the Torah (though "Jerusalemite" should not be taken literally, since the city of Jerusalem did not exist as a place of Jewish habitation at the time that this text was composed). In light of the discovery of many manuscripts containing similar works, it can be recognized that the Targum Yerushalmi that appears in the Mikra'ot Gedolot is but one representative of a larger family of Aramaic texts that are designated in the scholarly literature as "Fragmentary Targums."

Dates: Although the known manuscripts of these Targums are from the 11th-13th century, it appears that their contents originated hundreds of years earlier. Place: Israel Description: The "Targum Yerushalmi" does not provide a complete Aramaic translation of the Torah, but is confined to specific verses (or sometimes just individual phrases or words). There is no evidence that this Targum was intended to provide alternative readings for one of the complete Targum texts.

Magical Capitalism - Brian Moeran 2018-07-16

This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies - shamanism, sorcery, enchantment, the occult - is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.
