Women Researching in Africa - Ruth Jackson 2018-07-31

This edited collection explores the lives, consequences and motivations of female researchers in Africa, giving unprecedented insights into how their gender—and sometimes their ethnicity and age—impacted on their research experiences, and how doing research in Africa affected them as women. Each contributor considers her place or position in the research process and provides a vivid portrait of that experience. Drawing on research findings from Nigeria, Ethiopia, Cameroon, Ghana, Guinea, Malawi, Uganda and other African countries, the book looks at gender and identity as a female researcher in Africa; relationships with 'others'; and unique methodological challenges for female researchers in Africa. With refreshing candour, each chapter challenges other researchers in Africa (both women and men), to integrate

critical reflections of gender and diverse gendered field experiences into their work. Women Researching in Africa will be of interest to students and scholars across a range of disciplines including development studies, anthropology, geography, gender studies and international studies.

Cochrane Handbook for Systematic Reviews of Interventions - Julian P. T. Higgins 2008-11-24  
Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library ([www.thecochranelibrary.com](http://www.thecochranelibrary.com)). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

Catalog - Robin Cherry 2008-09-04  
Since 1872 when traveling salesman Aaron Montgomery Ward realized he could eliminate the middleman and sell goods directly to his customers, Americans have had an ongoing love affair with the mail-order catalog, which continues undiminished even in today's online-driven world. The practical can find deals on furniture and clothing in L.L.Bean and Sears, the extravagant can consider his and hers matching helicopters, windmills, hot-air balloons, and submarines in the Neiman Marcus Fantasy Catalog; those looking to get their pulses racing can browse Victoria's Secret and Abercrombie & Fitch; while our inner swashbuckler can travel the world through the pages of the J. Peterman Owner's Manual where Moroccan caftans, Russian Navy t-shirts, and wooden water buckets from rural China entice the imagination. In Catalog: The Illustrated History of Mail Order Shopping, Robin Cherry traces the timeline of these snapshots from American history and discovers along the way how we dressed, decorated our houses, worked, played, and got around. From corsets to bell-bottoms, from baby-doll dresses and Doc Martens all the way to iPods, the history of these catalogs is the history of our lives and our culture. GIs during World War II were kept company by the models in the pages of lingerie catalogs; hockey goalies fashioned makeshift shin guards out of them during the Great Depression, and creative children across the country still play with homemade paper dolls cut from clothing catalogs. A number of celebrities got their start modeling for catalogs: Gregory Peck, Lauren Bacall, Katherine Heigl, Matthew Fox, and Angelina Jolie. Jimi Hendrix and Bob Dylan both got their first guitars from the Sears catalog. Organized into categories such as clothing, food, animals, and houses, author Robin Cherry explores the vivid stories behind Sears, Montgomery Ward, Lillian Vernon, Harry & David, Jackson & Perkins, and of course, 45 years of the Neiman Marcus Christmas Book.

Insightful historical commentary places these catalogs in their social context, making this book a visual pleasure and a historically important piece of Americana.
