The Perils of Face - Ivo A. Strecker 2006

The present essays try to know how the culturally different peoples of Ethiopia remember their past, and what conceptions they entertain of each other; explore the dangers inherent in situations of cultural contact and examine how the powerful notions of pride, honor, name, and self-esteem come into play, as people struggle to maintain their identity, individually or as a group. The master trope for this kind of sensitivity and vulnerability in social and cultural interaction is "face". This is why the volume is entitled "The perils of face."

Grass-roots Justice in Ethiopia - Getachew Assefa (dir.). Alula Pankhurst 2016-07-28

This book presents a timely review of the relations between the formal and customary justice systems in Ethiopia, and offers recommendations for legal reform. The book provides cases studies from all the Region of Ethiopia based on field research on the working of customary dispute resolution (CDR) institutions, their mandates, compositions, procedures and processes. The cases studies also document considerable unofficial linkages with the state judicial system, and consider the advantages as well as the limitations of customary institutions with respect to national and international law. The editor's introduction reviews the history of state law and its relations with customary law, summarises the main findings by region as well as as on inter-ethnic issues, and draws conclusions about social and legal structures, principles of organization, cultural concepts and areas, and judicial processes. The introduction also addresses the questions of inclusion and exclusion on the basis of gerontocratic power, gender, age and marginalised status, and the gradual as well as remarkable recent transformations of CDR institutions. The editor's conclusion reviews the characteristics, advantages and limitations of CDR institutions. A strong case is made for greater recognition of customary systems and better alliance with state justice, while safeguarding individual and minority rights. The editors suggest that the current context of greater decentralization opens up opportunities for practical collaboration between the systems by promoting legal pluralism and reform, thereby enhancing local level justice delivery. The editors conclude by proposing a range of options for more meaningful partnership for consideration by policy makers, the legal profession and other stakeholders. In memory of Aberra Jembere and Dinsa Lepisa. Cover: Elders at peace ceremony in Arbore, 1993.

The Sidama - Adolf Ellegard Jensen 2021-01-25

Through My Eyes - Alton Gansky 2016-04-11

These are more than dreams and visions: they're a calling. Six people. Five mind-numbing visions. Four ancient and mysterious artifacts. Two exotic locations. And one greedy man who will stop at nothing, not even

murder, to achieve his goal. Rev. Adam Bridger and his wife, Dr. Rachel Tremaine are once again in the center of an adventure not of their making. And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine. They have been called on a mission that will forever change the world--if they survive.

In the Shadow of Marriage - Anne M. O. Griffiths 1997

Anne Griffiths originally went to Botswana to establish a university course in family law. But independent fieldwork in Botswana convinced her of the central role of the traditional customary legal system that stands alongside the colonial common law of courts and magistrates she was examining in her course. In the first comparative work on these two systems, Griffiths shows how the structure of both legal institutions is based on power and gender relations that heavily favor males. Griffiths's analysis is based on careful observation of how people actually experience the law as well as the more standard tools of statutes and cases familiar to Western legal scholars. She explains how women's access to law is determined by social relations over which they have little control. In this powerful feminist critique of law and anthropology, Griffiths shows how law and custom are inseparable for Kwena women. Both colonial common law and customary law pose comparable and constant challenges to Kwena women's attempts to improve their positions in society.

The Real Name of God - Rabbi Wayne Dosick 2012-05-29

Reveals the real, whole name of God and its place within each of us • Explains how none of the God-names commonly used in the Bible is God's real name • Shows how the real name of God unites all religions from both West and East • Includes spiritual techniques, prayers, poems, and meditative chants to bring each of us into deep, personal, intimate, living relationship with God Of the many names of God commonly used in the Bible and other sacred literature, none is God's real name. Every God-name, including YHWH, reflects only one of God's many aspects, such as the loving creator, the militaristic authoritarian, or the all-knowing judge. None embodies the wholeness, the totality, the full Essence of God. Who then are we to speak to when we seek God? If you can't truly know something until you know its name, how can we truly know God? The culmination of years of translation research and etymological investigation, Rabbi Wayne Dosick's work digs through many layers of presumption and deeply ingrained beliefs to reveal the real name of God hiding in plain sight in the Bible: Anochi. He shows how this sacred name unites all religions--both of the West and the East. The name Anochi enables us to finally meet the whole, complete, real God--both the grand God of the vast universe and the God of breath, soul, and heart who

dwells within each of us. This in-depth exploration of God's name includes spiritual techniques, poems, guided prayers, and meditative chants to bring each of us into personal, intimate, and purposeful relationship with God. By knowing the real name of God, we can affirm the connection to the Divine at the core of our being. We can touch the face of God that resides deep within us all.

Cultural Diversity, Heritage and Human Rights - Michele Langfield 2009-12-04

This theoretically innovative anthology investigates the problematic linkages between conserving cultural heritage, maintaining cultural diversity, defining and establishing cultural citizenship, and enforcing human rights. It is the first publication to address the notions of cultural diversity, cultural heritage and human rights in one volume. Heritage provides the basis of humanity's rich cultural diversity. While there is a considerable literature dealing separately with cultural diversity, cultural heritage and human rights, this book is distinctive and has contemporary relevance in focusing on the intersection between the three concepts. Cultural Diversity, Heritage and Human Rights establishes a fresh approach that will interest students and practitioners alike and on which future work in the heritage field might proceed.

Legal Pluralism and Development - Brian Z. Tamanaha 2012-05-28

Previous efforts at legal development have focused almost exclusively on state legal systems, many of which have shown little improvement over time. Recently, organizations engaged in legal development activities have begun to pay greater attention to the implications of local, informal, indigenous, religious, and village courts or tribunals, which often are more efficacious than state legal institutions, especially in rural communities. Legal pluralism is the term applied to these situations because these institutions exist alongside official state legal systems, usually in a complex or uncertain relationship. Although academics, especially legal anthropologists and sociologists, have discussed legal pluralism for decades, their work has not been consulted in the development context. Similarly, academics have failed to benefit from the insights of development practitioners. This book brings together, in a single volume, contributions from academics and practitioners to explore the implications of legal pluralism for legal development. All of the practitioners have extensive experience in development projects, the academics come from a variety of backgrounds, and most have written extensively on legal pluralism and on development.

Personal Autonomy in Plural Societies - Marie-Claire Foblets 2019-12-16

This volume addresses the exercise of personal autonomy in contemporary situations of normative pluralism. In the Western liberal tradition, from a strictly legal and theoretical perspective the social individual has the right to exercise the autonomy of his or her will. In a context of legal plurality, however, personal autonomy becomes more complicated. Can and should personal autonomy be recognized as a legal foundation for protecting a person's freedom to renounce what others view as his or her fundamental 'human rights'? This collection develops an interdisciplinary conceptual framework to address these questions and presents empirical studies examining the gap between the principle of personal autonomy and its implementation. In a context of cultural diversity, this gap manifests itself in two particular ways. First, not every culture gives the same pre-eminence to personal autonomy when examining the legal effects of an individual's acts. Second, in a society characterized by 'weak pluralism', the legal assessment of personal autonomy often favours the views of the dominant majority. In

highlighting these diverse perspectives and problematizing the so-called 'guardian function' of human rights, i.e., purporting to protect weaker parties by limiting their personal autonomy in the name of gender equality, fair trial, etc., this book offers a nuanced approach to the principle of autonomy and addresses the questions of whether it can effectively be deployed in situations of internormativity and what conditions must be met in order to ensure that it is not rendered devoid of all meaning.

Legal Pluralism in Ethiopia - Susanne Epple 2020-07-31

Being a home to more than 80 ethnic groups, Ethiopia has to balance normative diversity with efforts to implement state law across its territory. This volume explores the co-existence of state, customary, and religious legal forums from the perspective of legal practitioners and local justice seekers. It shows how the various stakeholders' use of negotiation, and their strategic application of law can lead to unwanted confusion, but also to sustainable conflict resolution, innovative new procedures and hybrid norms. The book thus generates important knowledge on the conditions necessary for stimulating a cooperative co-existence of different legal systems.

Impressionism and Its Canon - James E. Cutting 2006

Impressionism and Its Canon examines the diffuse relations among Impressionist artists and how history coalesced them into a uniform group. A pivotal artistic canon is that of French Impressionism. By considering the artists, the museums showcasing Impressionist artwork, the collectors who donated it to museums, and the scholars and art professionals who have written about the art, this work explores the evolution of this canon and its now iconic role in Western culture. The book also highlights the role of the public in supporting and solidifying the structure of the French Impressionist canon.

Canons and Consequences - Charles Altieri 1990

What does our literary past offer the present? Using his grasp of the full range of contemporary philosophical and literary stances, Charles Altieri in *Canons and Consequences?* offers a fascinating dialogue between cultures which should influence how we understand the purposes of literary education. This book takes the debate about the canon as a crucial test case for how competing perspectives in literary theory approach the subject of values. Altieri believes that the dominant poststructural perspectives are severely flawed by their inability to project or assess idealizations. He tries to define alternative principles for making value judgments, and he finds these principles within the traditional texts and discourses preserved by a high literary canon.

The Power of Law in a Transnational World - Franz Von Benda-Beckmann 2012-03-15

How is law mobilized and who has the power and authority to construct its meaning? This important volume examines this question as well as how law is constituted and reconfigured through social processes that frame both its continuity and transformation over time. The volume highlights how power is deployed under conditions of legal pluralism, exploring its effects on livelihoods and on social institutions, including the state. Such an approach not only demonstrates how the state, through its various development programs and organizational structures, attempts to control territory and people, but also relates the mechanisms of state control to other legal modes of control and regulation at both local and supranational levels.

From 1935 to 1992, the Frobenius Institute focused on studies in southern Ethiopia. The results of its empirical research are not only of ethnographic, but also historical value since the work was conducted before the Christian proselytization of the local population and the ascendancy of the socialist DERG regime. The anthropologists of the Frobenius Institute were among the few researchers to have documented South Ethiopia's cultural diversity before this change. This publication provides a critical look at the resulting ethnographic studies and renders an overview of Ethiopian studies and the political situation in Ethiopia during those sixty years.

The Future of African Customary Law - Jeanmarie Fenrich 2011-07-18

Customary laws and traditional institutions in Africa constitute comprehensive legal systems that regulate the entire spectrum of activities from birth to death. Once the sole source of law, customary rules now exist in the context of pluralist legal systems with competing bodies of domestic constitutional law, statutory law, common law and international human rights treaties. This book promotes discussion and understanding of customary law and explores its continued relevance in sub-Saharan Africa. The volume considers the characteristics of customary law and efforts to ascertain and codify customary law, and how this body of law differs in content, form and status from legislation and common law. It also addresses a number of substantive areas of customary law including the role and power of traditional authorities; customary criminal law; customary land tenure, property rights and intestate succession; and the relationship between customary law, human rights and gender equality.

Trusting and its Tribulations - Vigdis Broch-Due 2016-04-01

Despite its immense significance and ubiquity in our everyday lives, the complex workings of trust are poorly understood and theorized. This volume explores trust and mistrust amidst locally situated scenes of

sociality and intimacy. Because intimacy has often been taken for granted as the foundation of trust relations, the ethnographies presented here challenge us to think about dangerous intimacies, marked by mistrust, as well as forms of trust that cohere through non-intimate forms of sociality.
