Multisystemic Resilience - Michael Ungar 2021

"Across diverse disciplines, the term resilience is appearing more and more often. However, while each discipline has developed theory and models to explain the resilience of the systems they study (e.g., a natural environment, a community post-disaster, the human mind, a computer network, or the economy), there is a lack of over-arching theory that describes: 1) whether the principles that underpin the resilience of one system are similar or different from the principles that govern resilience of other systems; 2) whether the resilience of one system affects the resilience of other co-occurring systems; and 3) whether a better understanding of resilience can inform the design of interventions, programs and policies that address "wicked" problems that are too complex to solve by changing one system at a time? In other words (and as only one example among many) are there similarities between how a person builds and sustains psychological resilience and how a forest, community or the business where he or she works remains successful and sustainable during periods of extreme adversity? Does psychological resilience in a human being influence the resilience of the forests (through a change in attitude towards conservation), community (through a healthy tolerance for differences) and businesses (by helping a workforce perform better) with which a person interacts? And finally, does this understanding of resilience help build better social and physical ecologies that support individual mental health, a sustainable

environment and a successful economy at the same time?"--

Chronicles from the Future - Paul Amadeus Dienach 2016-03-21

In 1921, Paul Amadeus Dienach, a Swiss-Austrian teacher with fragile health, falls into a one-year-long coma. During this time, his consciousness slides into the future and enters the body of another man in 3906 A.D. When Dienach awakens from his coma, he finds himself back in 1922. Knowing that he doesn't have much time left, he writes a diary, recording whatever he could remember from his amazing experience: the mankind's history in the forthcoming centuries, from the nightmare of overpopulation and World Wars up until the world-changing globalisation, the radical new administration system, the colony on Mars and the next human evolutionary stage. Without any close friends and relatives to entrust, he doesn't say a word to anyone out of fear of being branded a lunatic. Before he dies, he hands his diary to his favourite student, George Papachatzis, later prominent Professor of Law and Rector of Panteion University of Greece. The diary circulates as hidden knowledge amongst high ranking masons in the lodges of Athens. In

1972, professor Papachatzis, despite an intense dispute, decides to publish Dienach's diary in Greek. Paul Dienach was not an author, poet, or professional writer. Rather, he was an ordinary man who kept a journal, never with the expectation that it would be published. This unique and controversial book, a universal legacy, is now carefully edited, translated and available to everyone. This is the history of our future! We deliver it to you."

The Coffin Confessor - Bill Edgar 2021-07-02

Imagine you are dying with a secret. Something you've never had the courage to tell your friends and family. Or a last wish - a task you need carried out before you can rest in peace. Now imagine there's a man who can take care of all that, who has no respect for the living, who will do anything for the dead. Bill Edgar is the Coffin Confessor - a one-of-a-kind professional, a man on a mission to make good on these last requests on behalf of his soon-to-be-deceased clients. And this is the extraordinary story of how he became that man. Bill has been many things in this life: son of one of Australia's most notorious gangsters, homeless street-kid, maximum-security prisoner, hard man, family man, car thief, professional punching bag, philosopher, inventor, private investigator, victim of horrific childhood sexual abuse and an activist fighting to bring down the institutions that let it happen. A survivor. As a little boy, he learned the hard way that society is full of people who fall through the cracks - who die without their stories being told. Now his life's work is to make sure his clients' voices are heard, and their last wishes delivered: the small-town grandfather who needs his tastefully decorated sex dungeon destroyed before the kids find it. The woman who endured an abusive marriage for decades before finding freedom. The outlaw biker who is afraid of nothing . . . except telling the world he is in love with another man. The dad who desperately needs to track down his estranged daughter so he can find a way to say he's sorry, with one final gift. Confronting and confounding, heartwarming and heartbreaking, *The Coffin Confessor* is a compelling story of survival and redemption, of a life lived on the fringes of society, on both sides of the law - and what that can teach you about living your best life . . . and death.

UNIX and Shell Programming - Behrouz A. Forouzan 2003

Designed as one of the first true textbooks on how to use the UNIX operating system and suitable for a wide variety of UNIX-based courses, *UNIX and Shell Programming* goes beyond providing a reference of commands to offer a guide to basic commands and shell programming. Forouzan/Gilberg begin by introducing students to basic commands and tools of the powerful UNIX operating system. The authors then present simple scripting concepts, and cover all material required for understanding shells (e.g., Regular Expressions, grep, sed, and awk) before introducing material on the Korn, C, and Bourne shells. Throughout, in-text learning aids encourage active learning and rich visuals support concept presentation. For example, sessions use color so students can easily distinguish user input from computer output. In addition, illustrative figures help student visualize what the command is doing. Each chapter concludes with problems, including lab sessions where students work on the computer and complete sessions step-by-step. This approach has proven to be successful when teaching this material in the classroom.

Bound by Revenge (the Singham Bloodlines) - M. V. Kasi 2017-10-14

"Nothing, and no one--including you, can stop this from happening. You will become my wife by tonight." Anika Patel led a perfect life. She had a loving family, a bright career as a doctor, and a man who was her best friend with a possibility of turning into something more. But one phone call and an impulsive decision changed it all... She headed for a two week vacation to a place in India to meet with her late father's relatives. When she got there, what transpired was right out of her nightmares. Stuck in a land of no rules or law, where family honor meant everything, she was to be bound by revenge to a man who threatened to steal her soul and also her heart... Although a part of the series, this book can be read as a STANDALONE romance. WARNING: This is a fictional romance story that transports you to a different world that has no restraints or boundaries. Please proceed with caution as the book contains graphic violence and sexual content that is recommended for mature reading audiences with an open mind only! EXCERPT: "Turn around and look at me." The order was thrown in a chillingly calm tone. Trembling and worried about the consequences, Anika slowly turned, and raised her eyes toward the man in front of her. Her vision was still blurry from the residual moisture. She

wiped her tears away and was met with the sight of the broad back of a tall man. He was turned away from her as he closed the door shut. Stepping back, she wrapped her arms around her protectively. She kept her wary eyes trained on his back, waiting for what, she didn't know. As soon as he turned, she felt like the air was sucked away from around them, making her gasp out loud. The man looked larger than life, and more importantly, he looked like he could easily kill her with a single blow. His eyes scanned the mess she had made in the room, before he turned to look at her face dispassionately. She expected to see anger, but there was none. He didn't say anything for a long moment, just kept his eyes firmly locked on her face. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. The word 'bride' broke through her trance and made adrenaline course through her body. God, this is so messed up. Why am I cowering in fear? "I don't want this," she whispered, unable to work up a louder voice. She kept her eyes on his face, pleading. "Please stop this marriage." He didn't respond, and neither did he react. "I don't want this wedding," she repeated. "We can think of another solution. We should be able to come up with a reasonable..." her voice trailed off when she saw him compressing his lips into a thin, hard line as he began to walk toward her. Through trembling lips, she spoke again. "I'm not from your world. I don't belong here. Let me go back to my family," she reasoned. The man stopped in front of her until he was too close for comfort. His eyes were riveted on her face as his mouth stretched into a sneer full of hate and loathe. "We are getting married because your precious family has begged me to do so. So, if you or your fucking family tries to pull any stunt during our wedding today, and try to back out, I'm not going to spare anyone." He spat out the words 'your family' like they were a curse. Slowly and deliberately his eyes swept over her body clothed in traditional bridal

attire. "Nothing and no one--including you--can stop this from happening. You will become my wife by tonight," he vowed. Listening to those words, her legs gave out from under her, and she collapsed on her knees unable to swallow the defeat. How could she let herself be trapped in this hellhole? Because of her one impulsive decision, she was going to lose everything.
