**Flight of Passage** - Rinker Buck 2013-03-05  
Writer Rinker Buck looks back more than 30 years to a summer when he and his brother, at ages 15 and 17 respectively, became the youngest duo to fly across America, from New Jersey to California. Having grown up in an aviation family, the two boys bought an old Piper Cub, restored it themselves, and set out on the grand journey. Buck is a great storyteller, and once you get airborne with the boys you find yourself absorbed in a story of adventure and family drama. And *Flight of Passage* is also an affecting look back to the summer of 1966, when the times seemed much less cynical and adventures much more enjoyable.

### **Violet the Pilot** - Steve Breen 2016-09-13

Violet is a science-loving girl inventor with a flair for the air! Fans of Ada Twist, Scientist and Rosie Revere, Engineer will love this classic underdog story by two-time Pulitzer Prize-winning editorial cartoonist Steve Breen. By the time she's two years old, Violet Van Winkle can engineer nearly any appliance in the house. And by eight she's building elaborate flying machines from scratch—mind-boggling contraptions such as the Tubbubbler, the Bicycopter, and the Wing-a-ma-jig. The kids at school tease her, but they have no idea what she's capable of. Maybe she could earn their respect by winning the blue ribbon in the upcoming Air Show. Or maybe something even better will happen—something involving her best-ever invention, a Boy Scout troop in peril, and even the mayor himself! "An

engaging story of a spunky girl who follows her dreams . . . Violet is a terrific role model."--  
School Library Journal

### **First Light** - Geoffrey Wellum 2018-05-17

Two months before the outbreak of the Second World War, eighteen-year-old Geoffrey Wellum becomes a fighter pilot with the RAF . . . Desperate to get in the air, he makes it through basic training to become the youngest Spitfire pilot in the prestigious 92 Squadron. Thrust into combat almost immediately, Wellum finds himself flying several sorties a day, caught up in terrifying dogfights with German Me 109s. Over the coming months he and his fellow pilots play a crucial role in the Battle of Britain. But of the friends that take to the air alongside Wellum many never return.

**Island in the Sky** - Ernest K. Gann 2020-02-25

Island in the Sky, first published in 1944, is aviator Ernest Gann's exciting, realistic novel of survival in the far north of Canada. The Corsair, a plane attached to the Army Air Transport Command during the Second World War, is forced to land after heavy icing of the wings makes the plane unflyable. The crew look to Dooley, the pilot for guidance in order to survive the frigid conditions, and from support bases and search aircraft, a rescue mission is mounted. Island in the Sky was the subject of a 1953 movie starring John Wayne. Publisher's Note, Nov. 26, 2015: Note that a recent reviewer's comment stating that the book 'lacks many parts...including the entire completion' is not accurate. Our editions of Island in the Sky contain the full and complete text of the book as written by author Ernest Gann.

**Redefining Airmanship** - Tony Kern

1997-01-22

Redefining Airmanship offers the first concrete model of the abstract ideal of "airmanship," and

gives the reader step-by-step guidance for self-appraisal and improvement in the areas of flight proficiency, teamwork, and good judgment in crisis situations. The author, Major Tony Kern, draws on his extensive flight and crew-training experience in the U.S. Air Force, but his model is invaluable for all pilots, whether military, recreational, or commercial. "Kern's work is a breakthrough, and a benchmark." --John J. Nance, author of Blind Trust

**Mike Busch on Engines** - Mike Busch  
2018-05-12

"The risk of engine failure is greatest when your engine is young, NOT when it's old. You should worry more about pediatrics than geriatrics." - Mike Busch A&P/IA Mike Busch on Engines expands the iconoclastic philosophy of his groundbreaking first book Manifesto to the design, operation, condition monitoring, maintenance and troubleshooting of piston aircraft engines. Busch begins with the history and theory of four-stroke spark-ignition engines. He describes the construction of both the "top end" (cylinders) and "bottom end" (inside the case), and functioning of key systems (lubrication, ignition, carburetion, fuel injection, turbocharging). He reviews modern engine leaning technique (which your POH probably has all wrong), and provides a detailed blueprint for maximizing the life of your engine. The second half presents a 21st-century approach to health assessment, maintenance, overhaul and

troubleshooting. Busch explains how modern condition monitoring tools-like borescopy, oil analysis and digital engine monitor data analysis-allow you to extend engine life and overhaul strictly on-condition rather at an arbitrary TBO. The section devoted to troubleshooting problems like rough running, high oil consumption, temperamental ignition and turbocharging issues is worth its weight in gold. If you want your engine to live long and prosper, you need this book.

**Evil Come, Evil Go** - Whit Masterson  
2012-02-15

The newspapers called it the Crime of the Century. The extravagance was understandable. The crime would have made headlines had it happened to an ordinary citizen, but this blow had been struck at Andy Paxton. His golden voice had made him an American institution. Lissa, his actress wife, was almost as successful. It was unbelievable that murder and an evil even worse than murder could have touched them.

Suspecting that Andy's enemy might be someone who knew him well, the police dug into the past lives of the members of his entourage. Even the most trustworthy employees had unsavory secrets. Afraid to enlist an ally who might be an adversary, Andy sets out alone to find his opponent. There was no one he trusted, not even the police. And, ironically, he learned that police did not trust him. Here is a taut, compelling mystery, set against the fascinating background of show business.

*What I Loved* - Siri Hustvedt 2004-03-01  
A powerful and heartbreaking novel that chronicles the epic story of two families, two sons, and two marriages Siri Hustvedt's *What I Loved* begins in New York in 1975, when art historian Leo Hertzberg discovers an extraordinary painting by an unknown artist in a SoHo gallery. He buys the work; tracks down the artist, Bill Wechsler; and the two men embark on a life-long friendship. Leo's story, which spans twenty-five years, follows the evolution of the

growing involvement between his family and Bill's-an intricate constellation of attachments that includes the two men; their wives, Erica and Violet; and their children, Matthew and Mark. The families live in the same building in New York, share a house in Vermont during the summer, keep up a lively exchange of thoughts and ideas, and find themselves permanently altered by one another. Over the years, they not only enjoy love but endure loss-in one case sudden, incapacitating loss; in another, a different kind, one that is hidden and slow-growing, and which insidiously erodes the fabric of their lives. Intimate in tone and seductive in its complexity, the novel moves seamlessly from inner worlds to outer worlds, from the deeply private to the public, from physical infirmity to cultural illness. Part family novel, part psychological thriller, *What I Loved* is a beautifully written exploration of love, loss, and betrayal-and of a man's attempt to make sense of the world and go on living.

**Six Kids and a Stuffed Cat** - Gary Paulsen  
2016-05-10

From three-time Newbery Honor author Gary Paulsen comes a laugh-out-loud novel about six wacky misfits who get stuck together in a school restroom and discover friendship. It seemed like a normal school day, until a horrible storm forced the very cautious school administration to make everyone hole up in a safe place. Six students find themselves stuck in a tiny, questionably smelly space—a school bathroom—with a stuffed cat for entertainment. Hijinks ensue and the unexpected happens. They enter as strangers...and leave as friends. Get to know the story even better with a special script that accompanies the novel, so any six kids can get together with their friends and perform the story anywhere they'd like.

**Yeager** - Chuck Yeager 2000

'The secret to my success is that I always

*Fate is the Hunter* - Ernest K. Gann 2011-11-03

The copper-bottomed classic from a memorable and courageous pilot. FATE IS THE HUNTER is a fascinating and thrilling account of some of the more memorable experiences Ernest K Gann had in the air. He's flown in both peace and war and come close to death many times. Here he reveals the characters he's known and the dramas he's experienced, portraying fate (or death) as a hunter constantly in pursuit of pilots. This is a fabulous account of both the history of aviation and one man's life in the air.

**Probable Impossibilities** - Alan Lightman  
2021-02-09

The acclaimed author of Einstein's Dreams tackles "big questions like the origin of the universe and the nature of consciousness ... in an entertaining and easily digestible way" (Wall Street Journal) with a collection of meditative essays on the possibilities—and impossibilities—of nothingness and infinity, and how our place in the cosmos falls somewhere in between. Can space be divided into smaller and

smaller units, ad infinitum? Does space extend to larger and larger regions, on and on to infinity? Is consciousness reducible to the material brain and its neurons? What was the origin of life, and can biologists create life from scratch in the lab? Physicist and novelist Alan Lightman, whom The Washington Post has called "the poet laureate of science writers," explores these questions and more—from the anatomy of a smile to the capriciousness of memory to the specialness of life in the universe to what came before the Big Bang. *Probable Impossibilities* is a deeply engaged consideration of what we know of the universe, of life and the mind, and of things vastly larger and smaller than ourselves.

**Fate is the Hunter** - Ernest K. Gann  
1970-07-12

"This book is an episodic log of some of the more memorable of (the author's) nearly 10,000 hours aloft in peace and in war. It is also an attempt to define by example his belief in the phenomenon of luck-- that the pattern of anyone's fate is only

partly contrived by the individual".--The New Yorker.
