[Building a Special with Ant Anstead Master Mechanic](#) - Ant Anstead 2021-07-20  
Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic,

aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork

Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

LSD, My Problem Child - Albert Hofmann 2005

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path

from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

**Report on the Affairs of Phoenix Venture Holdings Limited, MG Rover Group Limited and 33 Other Companies** - Gervase MacGregor 2009

MG Rover Group Limited (MGRG) went into administration on 8 April 2005. On 31 May 2005 inspectors were appointed by the Secretary of State for Trade and Industry to investigate the affairs of Phoenix Venture Holdings (MGRG's ultimate parent company), MGRG, 32 other companies in the Group and MGR Capital Limited. This report addresses the period between the acquisition of

MGRG by Techtronic Limited in 2000 and MGRG's entry into administration in 2005. It pays particular reference to the events leading up to the appointment of administrators of MGRG in April 2005 and the matters raised in a review of financial statements by the Financial Reporting Review Council (the FRRP review is included in the report as an exhibit). The inspectors criticise the unreasonably large financial awards to the four members of the Phoenix Consortium and the chief executive of MGRG. This report has been informed by documentary and computer evidence from numerous sources, including data from the Group's Longbridge site and national sales companies. 95 individuals were interviewed formally and 20 witness statements provided; all of these responses have been considered in this report.
