

Unisa Results 2015 Pdf

Yeah, reviewing a ebook **Unisa Results 2015 pdf** could ensue your close associates listings. This is just one of the solutions for you to be successful. As understood, expertise does not recommend that you have extraordinary points.

Comprehending as skillfully as promise even more than further will find the money for each success. neighboring to, the pronouncement as without difficulty as perception of this Unisa Results 2015 pdf can be taken as with ease as picked to act.

Media and Moral Education - Laura D'Olimpio
2017-11-06

Media and Moral Education demonstrates that the study of philosophy can be used to enhance critical thinking skills, which are sorely needed in today's technological age. It addresses the current oversight of the educational environment not keeping pace with rapid advances in technology, despite the fact that educating students to engage critically and compassionately with others via online media is of the utmost importance. D'Olimpio claims that philosophical thinking skills support the adoption of an attitude she calls critical perspectivism, which she applies in the book to international multimedia examples. The author also suggests that the Community of Inquiry - a pedagogy practised by advocates of Philosophy for Children - creates a space in which participants can practise being critically perspectival, and can be conducted with all age levels in a classroom or public setting, making it beneficial in shaping democratic and discerning citizens. This book will be of interest to academics, researchers and postgraduate students in the areas of philosophy of education, philosophy, education, critical theory and communication, film and media studies.

Police Behavior, Hiring, and Crime Fighting - John A. Eterno 2021-09-28

This edited collection by internationally recognized authors provides essays on police behavior in the categories of police administration, police operations, and combating specific crimes. Individual chapters strike at critical issues for police today, such as maintaining the well-being of officers, handling stress, hiring practices, child sexual exploitation,

gunrunning, crime prevention strategies, police legitimacy, and much more. Understanding how police are hired and behave is a way of understanding different governments around the world. The book will cover the practices of countries as diverse as China, Germany, India, Japan, Turkey, South Africa, the United States, and others. Readers will be exposed to aspects of police that are rarely, if ever, explored. The book is intended for a wide range of audiences, including law enforcement and community leaders and students of criminal justice.

The Influence of Theorists and Pioneers on Early Childhood Education - Roy Evans 2022-02-24

The chapters in this book reflect on the major shifts in the views of early childhood thinkers and educators, who have contributed to contemporary theoretical frameworks pertaining to early childhood learning. The book also revisits and critically analyses the influence of developmental theories on early childhood education, starting in the 1890s with the work of G. Stanley Hall that established the close association of early childhood education and child development. Several chapters comprise critical examinations of the fundamental influence of thinkers such as Piaget, Vygotsky, Kohlberg, Adler, Pestalozzi, Froebel, and so on, on early childhood learning. The book also contends that these theoretical conceptions of child development have heavily influenced modern views of early childhood education. This book is a significant new contribution to early childhood learning, and will be a great resource for academics, researchers, and advanced students of Education, Public Policy, History of Education, Psychology, and Sociology. The chapters in this book were originally published

as a special issue of the Early Child Development and Care.

Fate of the Nation - Jakkie Cilliers 2017-07-24
WHAT DOES OUR FUTURE HOLD? In these uncertain times, this is the question on many South Africans' lips. Will we become more prosperous and less divided as a nation or remain hugely unequal and generally poor? Will the ANC split or eventually be forced into an alliance with the EFF after 2019? Could the DA rule the country after the 2024 elections? In *Fate of the Nation* Jakkie Cilliers develops three scenarios for our immediate future and beyond: Bafana Bafana, Nation Divided and Mandela Magic. Cilliers says the ANC is currently paralysed by the power struggle between what he calls the Traditionalists and the Reformers. It is this power struggle that has led to the inept leadership, policy confusion and poor service delivery that has plagued the country in recent years. Key to which scenario could become our reality is who will be elected to the ANC's top leadership at the party's national conference in December 2017. Whichever group wins there will determine what our future looks like. This is a book for all concerned South Africans.

Reliability and Statistics in Transportation and Communication - Igor Kabashkin
2018-01-23

This book reports on cutting-edge theories and methods for analyzing complex systems, such as transportation and communication networks and discusses multi-disciplinary approaches to dependability problems encountered when dealing with complex systems in practice. The book presents the most noteworthy methods and results discussed at the International Conference on Reliability and Statistics in Transportation and Communication (RelStat), which took place in Riga, Latvia on October 18 - 21, 2017. It spans a broad spectrum of topics, from mathematical models and design methodologies, to software engineering and data security issues, as well as practical problems in technical systems, such as transportation, and telecommunications.

TALIS 2018 Results (Volume II) Teachers and School Leaders as Valued Professionals - OECD 2020-03-23

This report aims to provide an in-depth analysis of teachers' and school leaders' perceptions of

the value of their profession, their work-related well-being and stress, and their satisfaction with their working conditions. It also offers a description of teachers' and school leaders' contractual arrangements, opportunities to engage in professional tasks such as collaborative teamwork, autonomous decision making, and leadership practices.

ECSM 2017 4th European Conference on Social Media - Academic Conferences and Publishing Limited 2017-07-03

Handbook of Research on Enhancing Teacher Education with Advanced Instructional Technologies - Ololube, Nwachukwu Prince 2015-07-17

Before today's teachers are ready to instruct the intellectual leaders of tomorrow, they must first be trained themselves. Information and communication technology can greatly increase the effectiveness of this training and also aid teachers as they seek to bring the latest technological advancements into their own classrooms. The *Handbook of Research on Enhancing Teacher Education with Advanced Instructional Technologies* explains the need to bring technology to the forefront of teacher training. With an emphasis on how information and communication technology can provide richer learning outcomes, this book is an essential reference source for researchers, academics, professionals, students, and technology developers in various disciplines.

Performance Measurement and Management Control - Marc J. Epstein
2018-09-07

This volume contains exemplary papers that were presented at the 2017 Conference on Performance Measurement and Management Control in Nice, France, by researchers in the field from North America, South America, Africa, Europe, and Asia.

The Guide to COIL Virtual Exchange - Jon Rubin 2022-09-16

This is the authoritative guide to implementing COIL Virtual Exchange, conceived, and co-edited by one of the originators of this innovative approach to internationalization, Jon Rubin. COIL, the acronym for Collaborative Online International Learning, is a central modality of what has come to be known as virtual exchange.

Since its first iteration in 2002, it has gradually established itself as a mature pedagogy that is being increasingly implemented across the world and is validated by a growing body of research. COIL Virtual Exchange at its most essential is a bi-lateral online exchange involving the integration of existing courses across two, or sometimes more, institutions that are geographically and/or culturally distinct. To launch a COIL VE course, the instructor of a class at a higher education institution in one location links online with a professor and his or her class in another region or country. Together, their students engage and develop joint projects, usually over a continuous five to eight-week period. Compared to the limited number of students worldwide who can engage in study abroad, COIL VE potentially opens up more equitable and inclusive participation in international education and intercultural experiences to all students, involves them in rigorous disciplinary and interdisciplinary studies, and promotes close and constructive engagement with students with different cultural perspectives. While many COIL courses are launched by individual instructors, based on their research connections and online outreach, they are being increasingly supported and led by dedicated COIL Coordinators who facilitate virtual exchanges and provide professional development. This comprehensive guide covers COIL VE pedagogy, provides examples of what takes place in the COIL classroom, and explores what instructors and staff need to know to facilitate and support a variety of COIL courses across the curriculum. It addresses how institutional stakeholders, especially those in leadership positions, can develop and embed a successful COIL initiative at their institution. It offers varied perspectives of COIL viewed from different institutional and cultural vantage points -- from research universities, community and technical colleges, and university systems -- and describes how COIL VE is developing in five different world regions, presenting eleven case studies. The book concludes with a guide to thirteen global organizations that support COIL and other forms of VE. Additionally, the book provides links to the COIL Connect for Virtual Exchange website (<https://coilconnect.org>) which includes an updated directory of

organizations, an expanding database of faculty and institutions participating in COIL and looking for partners, course templates, survey data, and case studies. This book offers faculty and administrators across the world -- whether formally involved in international education, in service-learning and community engagement, or wanting to incorporate a cross-cultural perspective in their disciplinary courses -- theoretical foundations, guidance on effective collaboration, and the strategic and pedagogical considerations to develop robust COIL VE courses and programs.

ICMLG 2018 6th International Conference on Management Leadership and Governance

- Dr Vincent Ribiere 2018-05-24

These proceedings represent the work of researchers participating in the 6th International Conference on Management, Leadership and Governance (ICMLG 2018) which is being hosted this year by the Institute for Knowledge and Innovation Southeast Asia (IKI-SEA), a Centre of Excellence of at Bangkok University, Thailand on 24-25 May 2018.

Perspectives and Theories of Social Innovation for Ageing Population - Andrzej Klimczuk 2020-03-25

Healthcare in Motion - Cecilia Vindrola-Padros 2018-08-17

How does the need to obtain and deliver health services engender particular (im)mobility forms? And how is mobility experienced and imagined when it is required for healthcare access or delivery? Guided by these questions, *Healthcare in Motion* explores the dynamic interrelationship between mobility and healthcare, drawing on case studies from across the world and shedding light on the day-to-day practices of patients and professionals.

African Christian Theologies and the Impact of the Reformation - Heinrich Bedford-Strohm 2017

One of the strongest heritages of the Reformation for Christianity was to return to the central role given to the Bible, translated in local dialects. Christianity expanded thanks to the translation of the Bible in vernacular languages worldwide. Most importantly, the people who had been victims of prejudices of race supremacy could now have access to God in their own language, culture, and idioms without

intermediaries. It is largely thanks to Bible translations that the majority of those churches in Africa, born of European mission activities, continued to develop positively after the end of the colonial age, and that independent African churches emerged. (Series: Theology in the Public Square / Theologie in der Öffentlichkeit, Vol. 10) [Subject: African Studies, Christian Studies]

Urban Transport XXII - C.A. Brebbia 2016-07-14
Containing studies from all over the world *Urban Transport XXII* consists of papers presented at the 22nd International Conference on Urban Transport and the Environment. The conference has been successfully held annually since it first started in Southampton in 1995. Transportation in urban areas, with its related environmental and social impacts, is a topic of significant concern for policymakers in both municipal and central government and for the urban citizens who need effective and efficient transport systems. Urban transport systems require considerable studies to devise and then safeguard their operational use, maintenance and safety. Transportation systems produce significant environmental impacts and can enhance or degrade the quality of life in urban centres. A distinctive element of the *Urban Transport and the Environment* series is the interaction between academic and practical perspectives where theories and ideas are debated and their practical applications rigorously tested. Clearly the issue of providing effective and efficient transport systems in the urban setting remains an acute challenge with financial, political and environmental constraints limiting the ability of transport system planners and operators to deliver the high quality outcomes expected by the public. Topics covered include: Environmental impact; Environmentally friendly transport modes; Transport strategies; Public transport systems; Transport modelling; Urban transport simulation; Transport safety and security; Infrastructure; Intermodal transport systems; Port and airport cities; Land use and transport integration; Transport policy and regulations; Experiences from emerging countries; Non-motorized transport models; Intelligent transport systems; Electromobility; Mobility and urban space; Sustainability and resilience; Emerging transport systems; Energy

efficiency.

Intimacy and Developing Personal Relationships in the Virtual World - Gopalan, Rejani Thudalikunnil 2018-07-13

Online communication has exploded in the past decade with the development of social networking sites like Facebook, as well as social media applications. As more people turn to the online world to connect with others, they must learn how to develop and maintain personal relationships with very little or no in-person interaction. *Intimacy and Developing Personal Relationships in the Virtual World* sheds light on the various issues that accompany online interactions. The book examines activities that have gone from occurring in reality to taking place in the online world such as cyberbullying, online social networking, and online dating. The publication also highlights the negative effects of spending a lot of time online such as mental health issues, internet addiction, and body image control. This book is a vital resource for psychiatrists, psychologists, clinicians, social workers, medical administrators, academicians, educators, and graduate-level students.

International Handbook of Teacher Education - John Loughran 2016-05-04

The *International Handbooks of Teacher Education* cover major issues in the field through chapters that offer detailed literature reviews designed to help readers to understand the history, issues and research developments across those topics most relevant to the field of teacher education from an international perspective. This volume is divided into two sections: The organisation and structure of teacher education; and, knowledge and practice of teacher education. The first section explores the complexities of teacher education, including the critical components of preparing teachers for teaching, and various aspects of teaching and teacher education that create tensions and strains. The second examines the knowledge and practice of teacher education, including the critical components of teachers' professional knowledge, the pedagogy of teacher education, and their interrelationships, and delves into what we know and why it matters in teacher education.

ECMLG 2022 18th European Conference on Management, Leadership and Governance -

Florinda Matos 2022-11-10

Handbook of Research on Global Perspectives on International Advertising -

Krom, Ipek 2022-06-24

International advertising is an important discipline in social sciences studies and though many books and articles have been published surrounding international advertising, only a few of them contain information about the advertising industry related to specific international countries and regions. Additional consideration on how advertising is utilized across the world is vital to understand the current best practices, challenges, and opportunities in the marketing field. The Handbook of Research on Global Perspectives on International Advertising considers various perspectives on international advertising through global and local lenses and discusses strategies and tactics of advertising across the globe. Covering topics such as branding, political advertising, cultural features, and tourism advertising, this reference work is ideal for industry professionals, academicians, practitioners, researchers, scholars, instructors, and students.

Sustainable Design - Tomayess Issa

2015-10-13

This book is concerned with the importance of Human Computer Interaction (HCI), Usability, user participants, and Sustainability in the Information Communication Technology (ICT) industry throughout the world. ICT has become a crucial instrument for communication, entertainment, commerce and research and this increased usage is presenting new environmental and sustainability issues as we try and meet the ever growing needs of both businesses and individuals. Sustainability must become central to the design of new technologies to make a concerted effort to tackle the environmental concerns we face now and for the future. Development frameworks, tools and models are used and explored and the New Participative Methodology for Sustainable Design (NPMSD) is introduced as a way of identifying key factors needed in developing more sustainable systems including new smart technology and portable devices. It is hoped additional research will be carried out in the

future to assess these sustainable design steps using larger, more diverse countries with developed and developing economies to further refine such methods. Sustainable Design will be an invaluable resource for students and researchers, designers and business managers who are interested in the human-centred, environmental concerns of sustainable technologies

BRICS and the New American Imperialism -

Vishwas Satgar 2020-03-01

Challenges the mainstream understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism BRICS is a grouping of the five major emerging economies of Brazil, Russia, India, China and South Africa. Volume five in the Democratic Marxism series, BRICS and the New American Imperialism challenges the mainstream understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism. It offers novel analyses of BRICS in the context of increasing US induced imperial chaos, deepening environmental crisis tendencies (such as climate change and water scarcity), contradictory dynamics inside BRICS countries and growing subaltern resistance. The authors revisit contemporary thinking on imperialism and anti-imperialism, drawing on the work of Rosa Luxemburg, one of the leading theorists after Marx, who attempted to understand the expansionary nature of capitalism from the heartlands to the peripheries. The richness of Luxemburg's pioneering work inspires most of the volume's contributors in their analyses of the dangerous contradictions of the contemporary world as well as forms of democratic agency advancing resistance. While various forms of resistance are highlighted, among them water protests, mass worker strikes, anti-corporate campaigning and forms of cultural critique, this volume grapples with the challenge of renewing anti-imperialism beyond the NGO-driven World Social Forum and considers the prospects of a new horizontal political vessel to build global convergence. It also explores the prospects of a Fifth International of Peoples and Workers.

Resilient Water Services and Systems: - Petri

Juuti 2019-08-15

Resilient Water Services and Systems: The Foundation of Well-Being provides an

overarching framework on water and sanitation services and how they are coping with resilience, aging infrastructure and climate change. The Editors present conceptual evidence about resilience backed by case studies that demonstrate resilience in practice. There are 13 case studies, from Asia, Africa, Europe and North and South America, providing informative perspectives from around the world. This is a timely collection of historic and contemporary evidence that will have increasing relevance in the coming decades. This volume will be of relevance to both scholars and practitioners. "Resilient water services are the key to water security across the world. Sustaining them is a challenging task in high-income countries where aging infrastructure is a critical issue, and in low-income countries where new infrastructure is needed and ability-to-pay is a more formidable barrier to success. The editors have compiled a succinct analysis and assembled case studies that cover diverse regions and contexts. From this book the reader will gain a wealth of knowledge about water services, as well as rich vicarious experiences from the cases.

The Routledge Handbook of English as a Lingua Franca - Jennifer Jenkins 2017-08-23
The Routledge Handbook of English as a Lingua Franca (ELF) provides an accessible, authoritative and comprehensive introduction to the main theories, concepts, contexts and applications of this rapidly developing field of study. Including 47 state-of-the art chapters from leading international scholars, the handbook covers key concepts, regional spread, linguistic features and communication processes, domains and functions, ELF in academia, ELF and pedagogy and future trends. This handbook is key reading for all those engaged in the study and research of English as a lingua franca and world/global Englishes more broadly, within English language, applied linguistics, and education.

OECD Reviews of School Resources: Flemish Community of Belgium 2015 - Nusche Deborah 2015-12-11
The effective use of school resources is a policy priority across OECD countries. The OECD Reviews of School Resources explore how resources can be governed, distributed, utilised

and managed to improve the quality, equity and efficiency of school education.

Multilingualism and Intercultural Communication - H. Ekkehard Wolff
2017-05-01

An in-depth look at the changing sociolinguistic dynamics that have influenced South African society. To date, there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro-sociolinguistic questions pertaining to language policies and their implementation (or non-implementation) to micro-sociolinguistic observations of actual language-use in verbal interaction, mainly in multilingual contexts of Higher Education (HE). There is a gradual move for the study of language and culture to be taught in the context of (professional) disciplines in which they would be used, for example, Journalism and African languages, Education and African languages, etc. The book caters for this growing market. Because of its multilingual nature, it caters to English and Afrikaans language speakers, as well as the Sotho and Nguni language groups _ the largest languages in South Africa [and also increasingly used in the context of South African Higher Education]. It brings together various inter-linked disciplines such as Sociolinguistics and Applied Language Studies, Media Studies and Journalism, History and Education, Social and Natural Sciences, Law, Human Language Technology, Music, Intercultural Communication and Literary Studies. The unique cross-cutting disciplinary features of the book will make it a must-have for twenty-first century South African students and scholars and those interested in applied language issues.

Invest Your Way to Wealth - Thobelani Maphumulo 2018-06-01

How do you grow your capital while still preserving it? And how do you use investment vehicles to contribute positively to your financial freedom and a comfortable retirement? The answer is simple: financial education is the precursor to good investment decision-making. *Invest Your Way to Wealth* is the guide to financial literacy. From asset classes to forex

markets, the time value of money, risky and risk-free assets, cap rates, property, debt, SMMEs and angel investors, Thobelani Maphumulo explains the financial terms and concepts ordinary South Africans need to know in order to become financially savvy quickly and, ultimately, to retire financially secure. Easy to understand, practical and informative, *Invest Your Way to Wealth* is essential reading for financial novices who need a trustworthy and accessible guide to a range of investment options that will help preserve and grow their capital before they engage expensive experts. By using the knowledge and tools provided in this book, you, too, can watch your money grow

[Australasian Conference on Information Systems 2018](#) - Australasian Conference on Information Systems 2018-01-01

Models for Solid Oxide Fuel Cell Systems - Dario Marra 2016-03-07

This book presents methodologies suitable for the optimal design of control and diagnosis strategies for Solid Oxide Fuel Cell (SOFC) systems. One key feature of the methodologies presented is the use of modeling tools with an ideal balance between accuracy and computational burden. Particular emphasis is given to the useful combination of models within a hierarchical framework to reduce the experimental efforts required for characterization and testing. Such tools are proven to be highly effective for SOFC systems destined for both residential and transportation applications. Throughout the book, optimization is always conceived in such a way so as to allow the SOFC systems to work efficiently while guaranteeing safe thermal operation, as well as an extended lifetime. This book is aimed at scientists and engineers involved in the design of marketable SOFC systems. It gathers the knowledge and experience derived from other research and industry practice for which control and diagnosis have proven to be the main keys to success and market penetration.

Advanced Methodologies and Technologies in Library Science, Information Management, and Scholarly Inquiry - Khosrow-Pour, D.B.A., Mehdi 2018-11-02

As the academic and scholarly landscape are continuously enhanced by the advent of new

technology, librarians must be aware and informed to develop and implement best practices. Effective administration of libraries is a crucial part of delivering library services to patrons and ensuring that information resources are disseminated efficiently. *Advanced Methodologies and Technologies in Library Science, Information Management, and Scholarly Inquiry* provides emerging information on modern knowledge management and effective means of sharing research through libraries. While highlighting the importance of digital literacy and information resources, readers will also learn new methods in information retrieval and research methods in quality scholarly inquiry. This book is an important resource for librarians, administrators, information science professionals, information technology specialists, students, and researchers seeking current information on the importance of effective library science technology.

[Environment and Development](#) - K. R. Shanmugam 2016-01-26

Grounded in current issues and constraints, this book focuses on valuing environmental degradation, green economic growth, trade-environment linkage, climate change, health outcome efficiency and public works programmes. Can the 'impressive' growth rates registered by the Indian economy last in the long run? If so, are they inclusive of the key dimensions of well-being? Can the balance between India's demand for and supply of natural capital make the country an ecological debtor? This volume, in honour of Professor U. Sankar, addresses such significant debates and provides policy initiatives to tackle these issues. This book argues that sustainable development as a long-term objective demands a paradigm shift in the approach to viewing ecology and that sustainability has to be assessed in terms of economic, social and environmental outcomes.

Inclusive Education : Practices and Challenges - Dr. Deepa Sikand Kauts 2021-09-11

This book is an attempt to create awareness among practitioners and to strengthen the focus on inclusion in their strategies and future plans for education and highlight the areas that need particular attention to promote inclusive

education and strengthen policy development. With this, we would move a step further and look into the current research trends in inclusive education as well as policy backdrops which provide us with the fair idea that how this idea of equity pedagogy is being propagated in the national educational policies of our country and further their translations in the Indian education realm. Papers compiled exhibit major concerns, issues, challenges and various practices for ensuring inclusion and inclusive pedagogical strategies for effective inclusive education. The researchers have also taken into account the social, cultural and learning diversities and the factors that facilitate to spot and remove barriers to learning and participation in education. It has the power to widen the scope of universal education by promoting access to all learners and accelerating educational equity too. This book also focuses on how stakeholders can contribute to the continuous growth of inclusive education and its implications for society, communities, schools and classrooms as well to provide clarity on theoretical and research perspectives to promote the integration of theory and practice of inclusive education. The volume will be highly beneficial for teachers, parents, policymakers, administrators and students who care about the needs of the learners and the development of an equitable education system in our country.

Understanding South Africa - Carien du Plessis
2019-11-15

When Nelson Mandela emerged from decades in jail to preach reconciliation, South Africans truly appeared a people reborn as the Rainbow Nation. Yet, a quarter of a century later, the country sank into bitter recriminations and rampant corruption under Jacob Zuma. Why did this happen, and how was hope betrayed? President Cyril Ramaphosa, who is seeking to heal these wounds, is due to lead the African National Congress into an election by May 2019. The ANC is hoping to claw back support lost to the opposition in the Zuma era. This book will shed light on voters' choices and analyze the election outcome as the results emerge. With chapters on all the major issues at stake--from education to land redistribution-- Understanding South Africa offers insights into Africa's largest and most diversified economy, closely tied to its

neighbors' fortunes.

Balancing Individualism and Collectivism - Janet McIntyre-Mills 2017-10-03

This book addresses the social and environmental justice challenge to live sustainably and well. It considers the consequences of our social, economic and environmental policy and governance decisions for this generation and the next. The book tests out ways to improve representation, accountability and re-generation. It addresses the need to take into account the ethical implications of policy and governance decisions in the short, medium and long term based on testing out the implications for self, other and the environment. This book recognizes the negative impact that humans have had on the Earth's ecosystem and recommends a less anthropocentric way of looking at policies and governance. The chapters discuss the geologic impact that people have had on the globe, both positive and negative, and brings awareness to the anthropocentric interventions that have influenced life on Earth during the Holocene era. Based on these observations, the authors discuss original ideas and critical reviews on ways to govern those who interpret the world in terms of human values and experience, and to conduct an egalitarian lifestyle. These ideas address the growing rise in the size of the ecological footprints of some at the expense of the majority, the growth in unsustainable food choices and of displaced people, and the need for a new sense of relationship with nature and other animals, among other issues. The chapters included in Balancing Individualism and Collectivism: Social and Environmental Justice encourage readers to challenge the sustainability agenda of the anthropocentric life. Proposed solutions to these unsustainable actions include structuralized interventions and volunteerism through encouragement and education, with a focus on protecting current and future generations of life through new governmental etiquette and human cognizance.

(u)Mzantsi Classics - Samantha Masters
2022-10-15

An Open Access edition of this book will be available on publication on the Liverpool University Press and African Minds websites. Though Greco-Roman antiquity ('classics') has

often been considered the handmaid of colonialism, its various forms have nonetheless endured through many of the continent's decolonising transitions. Southern Africa is no exception. This book canvasses the variety of forms classics has taken in Zimbabwe, Mozambique and especially South Africa, and even the dynamics of transformation itself. How does (u)Mzantsi classics (of southern Africa) look in an era of profound change, whether violent or otherwise? What are its future prospects? Contributors focus on pedagogies, historical consciousness, the creative arts and popular culture. The volume, in its overall shape, responds to the idea of dialogue - in both the Greek form associated with Plato's rendition of Socrates' wisdom and in the African concept of ubuntu. Here are dialogues between scholars, both emerging and established, as well as students - some of whom were directly impacted by the Fallist protests of the late 20-teens. Rather than offering an apologia for classics, these dialogues engage with pressing questions of relevance, identity, change, the canon, and the dynamics of decolonisation and potential recolonisation. The goal is to interrogate classics - the ways it has been taught, studied, perceived, transformed and even lived - from many points of view.

How World Events Are Changing Education - 2022-02-07

"Education was established to create employees for 19th and 20th century manufacturing models. The 21st century requires a rethink. Change is happening fast, with jobs not guaranteed as robots are taking over routines. We must prepare students for uncertainty & higher-level employment - helping them think and communicate instead of retain and recall facts for passing exams. Some curricula is either irrelevant for today or gained at the press of a button. Listening and literate talk (narratives) for collaboratively solving real problems should be the focus, not facts forgotten after tests. The book explores this important debate.

Contributors are: Daryle Abrahams, Nigel Adams, Peter Chatterton, Stefano Cobello, Joanna Ebner, Pierre Frath, Irene Glendinning, Susan James, Riccarda Matteucci, Gloria McGregor, Elena Milli, Elizabeth Negus, Juan Eduardo Romero, Rosemary Sage and Emma

Webster"--

People's development justice report - 2017-11-25

For the study, the four SDGs were reviewed as such WOREC has been relentlessly working since twenty six years on women's health, gender equality, safe migration and advocacy on decent work and climate action in 9 different districts namely Kailali, Dang, Udayapur, Morang, Sunsari, Siraha, Dhanusha, Bardiya and Sindhuli. Though goal 8 and 13 are not being reviewed in HLPF this year, WOREC reviewed these goals being these its expertise areas so that the human and financial resources can be maximised in reviewing the implementation of SDGs at local level. WOREC's human resources in aforementioned districts were mobilized to carry out focus group discussions and key informant interviews. During the data collection at the grassroots level, the community people were oriented on the basic knowledge on SDGs. Realizing that the local government officers such as women and children officers present in all the districts of Nepal are the key people to implement SDGs, WOREC facilitated orientations on SDGs, making them accountable to its execution. Additionally, awareness was raised among the networks and groups at the grass roots including women human rights defenders.

Concepts of Advanced Zero Waste Tools -

Chaudhery Mustansar Hussain 2020-12-01
Advanced Zero Waste Tools: Present and Emerging Waste Management Practices, Volume One in the Concepts of Advanced Zero Waste Tools series addresses the fundamental principles of zero waste that encourages the redesign of resource lifecycles so that products are reused. By promoting reuse and recycling, as well as prevention and product designs that consider the entire product lifecycle, the zero waste philosophy advocates for sustainability and environmental management and protection. This book takes the first step toward addressing the tools needed to implement zero waste, both on a practical and conceptual scale. In addition to environmental and engineering principles, the book also covers economic, toxicologic and regulatory issues, making it an important resource for researchers, engineers and policymakers working toward environmental sustainability. Uses fundamental,

interdisciplinary and state-of-the-art coverage of zero waste research to provide an integrated approach to tools, methodology and indicators Covers current challenges, design and manufacturing technology, and sustainability applications Includes up-to-date references and web resources at the end of each chapter, as well as a webpage dedicated to providing supplementary information

Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse - Maguvhe, Mbulaheni Obert 2021-12-31

Students with disabilities who are not able to perform to the best of their abilities often find themselves learning in inaccessible environments and subjected to increased stress levels due to the haphazard provisioning of education characterized by physical, communicative, and unsuitable teaching and learning approaches. Very often this is a result of various shortcomings including unfair assessment practices. Misconceptions and a lack of knowledge with regard to the implementation of inclusive education detract from the successful admission of students with disabilities and their retention and active participation. The Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse explores the concept of inclusive education in an African context. It advocates for the monitoring and evaluation of inclusive education and proposes interventions where reasonable accommodation or lack of accessibility is a reason for students with disabilities to not benefit from this system. Covering topics such as barriers to learning, rural schools, and student support, this major

reference work is an essential resource for administrators, advocates for students with disabilities, policymakers, researchers, pre-service teachers, educators, academicians, and students.

Novas perspectivas da Psicologia Social: o que nos aprisiona e o que nos liberta? Ensaios - Alunos Especializaç^oo Unisa 2016 2016-02-28
Esse livro tem como objetivo compartilhar ensaios e reflexões acerca das Psicologia Social tendo como temas: família, escola, estado, arte, religião. O objetivo é exemplificar e questionar a realidade brasileira e os serviços vigentes a partir da indagação do que nos aprisiona e o que nos liberta. A construção dos discursos e uma perspectiva crítica de Psicologia Social conduzem a uma reflexão atual da realidade brasileira.

The Mobile Learning Voyage - From Small Ripples to Massive Open Waters - Tom H. Brown 2015-10-14

This book constitutes the proceedings of the 14th International Conference on Mobile and Contextual Learning, mLearn 2015, held in a cruise ship leaving from and arriving to Venice, Italy, in October 2015. The 22 revised full papers and 6 short papers presented were carefully reviewed and selected from 81 submissions. The papers deal with the topics related to the theme of the conference: "The mobile learning voyage: from small ripples to massive open waters". The conference theme paid tribute to the developments that brought mobile learning from its infancy steps in the early 2000s to maturity in 2015, while simultaneously paving the way for the broad and open waters ahead with new developments and progress in mobile learning, and emerging ambient technologies.
