*Pick Up Your Own Brass - 2011-09*

In FBI terms, leaders who pick up their own brass casings at the firing range are more effective than those who expect someone else to do it for them. To those at the bureau, this small action speaks louder than words and is largely

indicative of a person's overall management style. Through a host of real-life FBI stories, from the streets to the corner offices, Pick Up Your Own Brass: Leadership the FBI Way reveals the leadership qualities that have enabled the bureau to successfully navigate through a century of war, espionage, organized crime, terrorism, fraud, and corruption. Offering fifty essential leadership lessons based on

challenges that FBI officials have faced over the course of their careers, this book can help anyone--established leaders, aspiring leaders, minority leaders, and even "accidental executives" who find themselves managing more than they imagined--build a culture of leadership.

CRIME SCENE STAGING - Arthur S. Chancellor  
2016-12-02

This unique text has been written as a practical reference for detectives, crime scene investigators, and prosecutors on how to recognize a staged scene and how this offender behavior could be used as evidence in subsequent trials. The book is designed to help

those actively engaged in conducting criminal investigations identify the red flags or those common findings at a crime scene that point to the scene being staged or altered and thereby assist the investigative process. The text is not only research based but also includes the authors' 30-year experience and personal observations in conducting hundreds of different crime scene investigations ranging from homicide and death, burglary and other property crimes, to rape and other sexual crimes. This experience also includes interviewing hundreds of victims and suspects, and conducting investigations from initiation of cases through prosecution. The authors have located hundreds of examples of staging and have included many of them as case studies throughout the text. Many of the case studies presented are based on the authors' personal involvement in them. In addition to defining and categorizing the various aspects of staging, the reader is also introduced to new terminology describing the different

elements of staging based on offender motive and the dynamics of the events. Other major discussions include primary and secondary staging as well as the two subcategories of primary staging: premeditated and ad hoc staging. Staging by individuals other than the offender and victim, described as tertiary/incidental scene alterations, are included as are several chapters on a variety of crimes and how to identify the red flags relevant to them. A final chapter is written especially for prosecutors and offers suggestions and references on how the concept of staging might be introduced in court. A very thorough Appendix provides reviews of many appellate court decisions from across the U.S. and Canada specifically addressing issues of staging. Evidence-Based Policing - Cynthia Lum  
2017-03-23

Today's police agencies are in a period of both crisis and reform as they try to improve their ability to deliver public safety to citizens in ways

that are effective, legitimate, and sustainable. Evidence-based policing offers one such solution - an approach which emphasises the value that research can bring to police officers and, by extension, the public they serve. However, evidence-based policing is not just about the process of understanding and evaluating police practices. It is also about translating and using that knowledge in daily police activities. This unique book examines the scientific evidence for the effectiveness of various police practices and provides tools to help turn research into practice. Part I gives a practitioner's definition of evidence-based policing, a primer on how to judge and interpret research findings, and a review of the Evidence-Based Policing Matrix, a tool for translating research on police crime control interventions. In Part II the authors review the breadth of knowledge about policing interventions for people, places, communities, and technology, focusing on how to optimize operations based on this information. Tools and

ideas that can assist in implementing evidence-based practices into patrol, investigations, supervision, management, crime analysis, and leadership are provided in Part III. Finally, in Part IV the authors speak to researchers about how they might continue to work with police agencies to advance evidence-based policing.

Deleuze and Cinema presents a step-by-step guide to the key concepts behind Deleuze's revolutionary theory of the cinema. Exploring ideas through

key directors and genres, Deleuze's method is illustrated with examples drawn from American, British, continental European, Russian and Asian cinema. [Lowrider Space](#) - Ben Chappell 2012-07-15  
Aren't lowriders always gangbangers? And, don't they always hold high status in their neighborhoods? Contrary to both stereotypes, the people who build and drive lowrider cars perform diverse roles while mobilizing a distinctive aesthetic that is sometimes an act of resistance and sometimes of belonging. A fresh application of critical ethnographic methods, Lowrider Space looks beyond media portrayals, high-profile show cars, and famous cruising scenes to bring readers a realistic tour of the "ordinary" lowriders who turn streetscapes into stages on which dynamic identities can be performed. Drawing on firsthand participation in everyday practices of car clubs and cruising in Austin, Texas, Ben Chappell challenges histories of erasure, containment, and class immobility to emphasize the politics of presence evidenced in lowrider custom car style. Sketching out a

partially personal map of the lowrider presence in Texas's capital city, Chappell also explores the interior and exterior adornment of the cars (including the use of images of women's bodies) and the intersecting production of personal and social space. As he moves through a second-hand economy to procure parts necessary for his own lowrider vehicle, on "service sector" wages, themes of materiality and physical labor intersect with questions of identity, ultimately demonstrating how spaces get made in the process of customizing one's self.

**Making Sergeant** - Gerald W. Garner

2021-02-24

Whether you are just pondering if you should go for the gold or are already radar-locked on getting there, this book, MAKING SERGEANT, is for you. Written by a veteran police chief with over 50 years of law enforcement experience, 15 of them spent as a sergeant, it contains practical advice for (1) deciding on whether you are ready for the job and (2) getting it and succeeding at it if you are. Short on theory and long on pragmatic advice, the text also will help the already-promoted supervisor successfully meet the challenges of this complex but vital position. As most law enforcement agency CEOs will acknowledge, first-line supervisor or sergeant is often the single most important position in the police organization. Without the best efforts of the highly competent man or woman wearing the stripes, the organization is destined to flounder in relative ineffectiveness. In the worst-case

scenario, the agency may fail. In other words, the sergeant has got to get it right. This book will help you decide if you want to be that sergeant. If you do, it will help you be him or her. If, at least at this stage of your career, you decide that the answer is no, that's fine, too. There is not a law enforcement agency anywhere that has enough talented first-line officers. Your goals may change later. But if you choose to go for it, the tips contained in this book will help you get there. If you are already a supervisor, MAKING SERGEANT will help you get better at what you are already doing.

*Let the Devil Sleep (Dave Gurney, No. 3)* - John Verdon 2012-07-24

In this latest novel from bestselling author John Verdon, ingenious puzzle solver Dave Gurney puts under the magnifying glass a notorious serial murder case - one whose motives have been enshrined as law-enforcement dogma - and discovers that everyone has it wrong. The most decorated homicide detective in NYPD history, Dave Gurney is still trying to adjust to his life of quasi-retirement in upstate New York when a young woman who is producing a documentary

on a notorious murder spree seeks his counsel. Soon after, Gurney begins feeling threatened: a razor-sharp hunting arrow lands in his yard, and he narrowly escapes serious injury in a booby-trapped basement. As things grow more bizarre, he finds himself reexamining the case of The Good Shepherd, which ten years before involved a series of roadside shootings and a rage-against-the-rich manifesto. The killings ceased, and a cult of analysis grew up around the case with a consensus opinion that no one would dream of challenging -- no one, that is, but Dave Gurney. Mocked even by some who'd been his supporters in previous investigations, Dave realizes that the killer is too clever to ever be found. The only gambit that may make sense is also the most dangerous - to make himself a target and get the killer to come to him. To survive, Gurney must rely on three allies: his beloved wife Madeleine, impressively intuitive and a beacon of light in the gathering darkness; his de-facto investigative "partner" Jack

Hardwick, always ready to spit in authority's face but wily when it counts; and his son Kyle, who has come back into Gurney's life with surprising force, love and loyalty. Displaying all the hallmarks for which the Dave Gurney series is lauded -- well-etched characters, deft black humor, and ingenious deduction that ends in a climactic showdown - Let the Devil Sleep is something more: a reminder of the power of self-belief in a world that contains too little of it.
