Debt Consolidation - Noah Daniels 2014-02-28

Most of us have debt. We may have a mortgage, a car loan, and many different credit cards. We may even owe on a time payment for household appliances or furniture. Some people have hospital bills and others have student loans. Debt accumulates every month and interest rates on unsecured debt, such as that which is accumulated on credit cards, tends to be very high. Debt consolidation methods are as varied as the reasons why people choose to combine their debt. In some cases, when people can no longer make the minimum payments on their monthly bills, or are barely making these payments, they may choose to file Chapter 13 Bankruptcy. Chapter 13 Bankruptcy not only consolidates debt, but it staves off any collectors and eliminates interest payments. Debt consolidation is usually a practical way to combine all of the money that you owe into one sum and make only one payment each month instead of several. For whatever reason you decide to consolidate your debt, in most cases, it is convenient and financially prudent.

Deal with Your Debt - Liz Weston 2013-02-19

Struggling with debt? Get realistic help that's actually useful, from Liz Weston, one of the most popular and respected personal finance experts! Today, people struggling with debt have far fewer options: lenders are stingier, which makes it harder to avert disaster, or to recover from setbacks like foreclosure, short sales, or bankruptcy. (Meanwhile, people with good credit have more options than ever, including some of the lowest interest rates in decades.) You need an up-to-date guide that can help you assess options, find help, discover opportunities, and take action that works. Liz Weston's *Deal with Your Debt, Updated and Revised Edition* is that guide. Weston reveals why most "conventional wisdom" about debt is just dead wrong. For most people, it's simply impractical to pay off every dime of debt, and live forever debt free. In fact, doing that can leave you a lot poorer in the long run. You're more likely to give up, or pay off the wrong debts. You could leave yourself too little flexibility to survive a financial crisis. You could neglect saving for retirement. You might even wind up in bankruptcy -- just what you're trying to avoid! For most people, it's smarter to control and manage debt effectively. In this extensively updated guide, Weston shows how to do that. You'll learn which debts can actually help build wealth over time, and which are simply toxic. You'll find up-to-date, real-world strategies for assessing and paying off debt, money-saving insights on which debts to tackle first, and crucial information about everything from debt consolidation loans to credit scores and credit counseling. Weston offers practical guidelines for assessing how much debt is safe -- and compassionate, realistic guidance if you've gone beyond the safety zone. If you've ever worried about debt, you'll find the new edition of *Deal with Your Debt* absolutely indispensable.

Pay It Down! - Jean Chatzky 2009-10-07

Jean Chatzky has been working with viewers of NBC's Today show for a series on how to get out of debt once and for all. Her method, both on TV and in this book, is simple yet powerful: the key is saving just \$10 a day that you currently waste. It doesn't sound like much—a movie ticket or lunch for two at McDonald's— but \$10 really can take you from debt to wealth in just a few years. And because it doesn't feel like an impossible goal, people are more likely to stick with Chatzky's plan than an extreme regimen of spending cutbacks. Chatzky is focusing on debt because it's the single biggest threat to our financial health. The average American family has sixteen credit cards and high-rate debt of more than \$8000, not even counting car loans and mortgages. They pay more than \$1000 a year in interest alone. Debt makes people feel depressed and overwhelmed, leaving them without enough money for the truly important things in life—education, retirement, owning a home, feeling secure. Chatzky, one of America's most popular personal finance experts, writes in down-to-earth, woman-next-door language about how to get started right away, without giving up the things that truly give you pleasure. She offers practical, accessible strategies to help readers find the money to pay off their bills, lower their interest rates, and improve their credit scores. Featuring real-life examples of people featured on her Today show series, Pay It Down can transform debtors into future millionaires.
